

INTERPRETATION

HARDWOOD SIGN BASES

Our hardwood sign bases are an elegant way to add freestanding exhibit signage quickly and easily. Just add a printed graphic panel to transform your exhibit space.

◀ Graphics shown are printed to Gatorboard, but nearly any rigid substrate your local printer can produce will work. The maximum recommended panel height is 72".

DISPLAY FEATURES

- 1 EASY ASSEMBLY**
Graphic panels are simply sandwiched between two bases and held in place with a bolt / wingnut.
- 2 CUSTOM GRAPHICS**
Print your own panel or let our exhibit professionals design it for you. Graphic templates are available upon request.
- 3 CUSTOM SIZES / WOOD**
Sign bases are 4" tall x 10" deep and come in lengths of 18", 24", 36" lengths. We stock poplar and cherry, but other wood species are available.
